

Appointment/Covid Procedures

In order to provide each patient with adequate time to be cared for, we are an appointment only practice. To accommodate various situations, we will happily see you and your pet in person or curbside.

For curbside appointments, Dr. Yee will come to your vehicle for consultation and your pet's medical procedures will be performed in the lobby so you can see your pet from your vehicle (procedure pending).

We ask all individuals entering the practice to wear a mask if experiencing any cold like/allergy symptoms. These protocols may change pending current health department recommendations.
